# Introduction

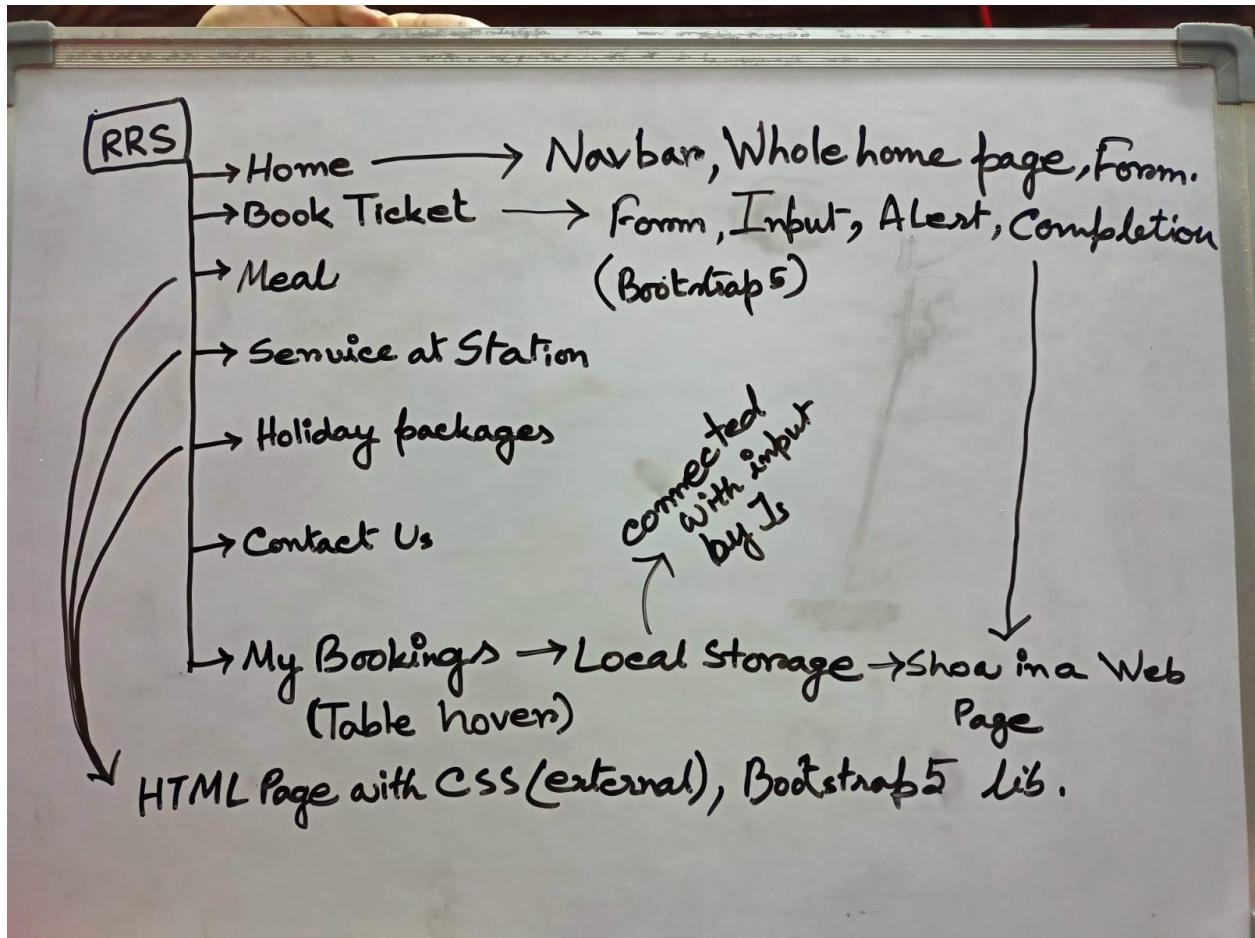

**RRS** is ultimately a prototype of an Indian online train-ticket-bookings website. Here we can book tickets as well as see our booked tickets. Besides, we provide a **variety of Meals** according to different tastes for customers. At the station we are also ready to serve customers. E.g: **Medical emergency, Pet Care. Holiday destinations** are also available on our website. To reach out for any query please visit our **Contact us** page.

---

## Objectives

To make a website on online train-ticket-booking  
with some other services.

## DFD :-

# Work Done By Team

## Home Page

This screenshot shows the same Railway Reservation System interface as the first one, but the main content area has been modified. It features four orange rectangular boxes labeled "Meals" at the top. Each box contains a photograph of food: "North Indian" shows various Indian curries and bread; "South Indian" shows dosas and other south Indian dishes; "International" shows a variety of international cuisines; and "Beverages" shows several cocktails. Below these is a blue rectangular box labeled "Services At Station" at the top. It contains three smaller images: a cartoon illustration of medical staff with a train in the background, a yellow and blue train at a station platform, and a woman and her dog looking out from a moving train window.

## MEDICAL FACILITY

Medical Facilities on Wheels by Indian Railways

A health facility is, in general, any location where healthcare is provided. Health facilities range from small clinics and doctor's offices to urgent care centers and large hospitals with elaborate emergency rooms and trauma centers.

## Meghalaya

Meghalaya, a hilly-state based in North East India, is one of the seven sister states of India. When translated, Meghalaya means the abode of clouds. Staying true to its name, this charming state will leave you spellbound by its lush green valleys, dense forests, high rainfall, and also by its varied biodiversity. Meghalaya has more than just the thunderclouds and green landscapes. Surrounded by the Khasi, Garo and Jaintia hills, Meghalaya offers you an experience of the unspoilt natural beauty. From majestic hills, cascading waterfalls to beautiful valleys, there is a myriad of places to visit in Meghalaya.

A screenshot of a web browser displaying a contact form page. The title bar shows "Contact Us". Below the title, there is a large orange header bar with the text "Please fill the form" in white. The form consists of four input fields: "Your Name\*" with value "John Doe", "Your Phone\*" with value "9876543210", "Your Email\*" with value "abc@gmail.com" (which has a tooltip "Please fill in this field."), and "Query\*" with placeholder text "Write Something...". A "Submit" button is located at the bottom right of the form. At the bottom of the page, there is a footer bar with the text "Copyright 2022 © Railways Reservation System" and an email address "mail@gmail.com".

---

## Conclusion

We learned about \_\_\_\_\_

- Some basics of HTML, CSS, Js
- How we can use <Form> tag and connect the user input with local storage we already have on a Browser.
- How to use <table> to show data.
- How to use Alert and others.
- Team-Work

---
